### Paid Fines For Killing Deer

Three Men Plead Guilty to Trespassing and Killing; Ranchers Protecting Game

Three men plead guilty in the court of Judge B. F. Hachen Monday and were assessed fines of \$200 and \$100 for killing a deer in the canyon.

Hugh Currie found the man had trespassed on the Currie Ranch Saturday night. They had caught an abundance of fish and had killed a fawn. They had cut out some steaks and had hidden the balance of the meat when Mr. Currie and Andy Walsh came upon them.

Game Wardens and Sheriff M. E. Cantrell were called.

H. L. Childs of Borger plead guilty to killing the deer and paid a fine of \$200. A. R. Kimball of Borger was fined \$100, and F. J. House of Claude also received a \$100 fine.

Together with other ranchmen along the Palo Duro, the Curries have maintained a game preserve for several years trying to increase the stock of deer, turkey and quail. Trespassers have been going into the canyon to kill this game, and officers are determined to make it expensive for them when they are caught.

### Three Offer Pay Breaking Milk Bottles 10 Years

A campaign is on in Texas for all citizens to return empty bottles to the rightful owners. This includes all types of bottles which are used in the sale of beverages.

John R. Sharp, dairyman, commented on the campaign, stating that a larger percentage of bottles were being returned.

The queer part of his comment was that during his ten years in the dairy business in Canyon he had only three women who offered to pay for bottles which they stated they had broken. He greatly appreciated their honesty in handling his bottles.

Replacing bottles is a considerable expense to all dairies, brought out from breakage which is never acknowledged by customers. It would be a fine thing if all our citizens would recognize their obligation in replacing milk bottles which are carelessly broken.

### 107 Quarts Canned at the Cooperative Plan at the College

In the Cooperative Canning effort of the Canyon High School, West Texas State College and the Home Demonstration Agent, 107 quarts of food was canned. The home economics laboratory of W. T. S. C. was open on Mondays and Wednesdays through July and a member of the home economics group was present to assist inexperienced canners with the pressur cooker.

A variety of vegetables was canned from Victory gardens including green beans, corn, blackeyed peas, squash, spinach, okra and beets.

Those who took advantage of this opportunity were Mrs. Harris M. Cook, Mrs. J. A. Hill, Mrs. Kennon, Mrs. John A. Hill, Mrs. C. A. Murray, Mrs. A. K. Knott, Miss Mattie Wayne, Miss Marie Fronabarger, and Miss Hellen Hickman.

### No Rain Falls Here But Cooler Weather

August brought only .88 of an inch of moisture.

No rain has fallen since the 20th of August, and only three light showers were recorded in Canyon during the month.

However the temperature has greatly moderated, and cool nights again prevail on the Plains.

There have been good showers over the county at various times, and in some sections of the Panhandle rains have been good.

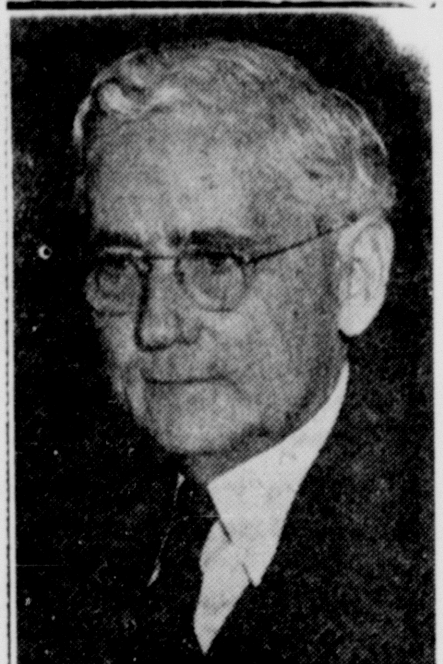

Some farmers have reported this week that they will make good row crops because of these local showers.

#### MOVED TO CANYON

Roger Moehlman has moved to Canyon. He is a State Sanitary Engineer with district headquarters in Amarillo. He moved his family here when he was unable to find adequate housing facilities in Amarillo.

Mrs. C. L. Gass of Ringgold is visiting with Mr. and Mrs. N. E. McIntire.

Yesterday Was Anniversary of Pres. Hill; Only Member of Original Faculty on Duty

DR. J. A. HILL

September 1 marked the 25th anniversary for Dr. J. A. Hill as president of West Texas State. Dr. Hill succeeded the late R. B. Cousins as head of the college on Sept. 1, 1918. The college was a normal school at that time, and the splendid growth of the institution has been due to the untiring work of the President.

Dr. Hill is the only member of the original faculty who now continues on the faculty. He came to Canyon in June, 1910, and the college opened in September, 1910. After eight years as head of the history department he was elevated to the presidency.

In speaking of this anniversary Tuesday, Dr. Hill believes that greater things are ahead for the college and for Canyon, and he hopes to continue to serve for many years to come.

### No Petit Jury Call Made For District Court

The September term of District Court will convene Sept. 27.

Men have been called to serve on the grand jury, but no petit jurors will be called unless it is evident there will be cases for trial. Judge Henry S. Bishop stated there was no need to call farmers away from their work unless it became apparent that a jury would be needed.

Men selected for the grand jury were:

Newton Crain, C. P. Robertson, Tom Gooch, John L. Hammond, L. O. Jennings, Paul Lindsey, Tom Lair, W. T. Oliver, Dan F. Sanders, Burney Slack, W. H. Stroud, Louie Wieck, E. L. Barnett, C. W. Bauer, T. E. Allen, P. L. Baber.

### Delbert Lowes Left For Navy Training

Delbert Lowes received a few more days at home and did not report at Lubbock until Monday. He was shipped out on the afternoon train, coming back through Canyon on his way to the east coast. Mrs. Lowes accompanied him to Lubbock.

Six other men accepted for the navy reported back to Lubbock Friday morning according to original orders: Edgar Donald Wyatt, Wayne Edward Trout, John Mark Dodson, Robert Cecil Spivy, Eugene Duncan Frakes.

### Flight Instructor Is Held on Theft Charge

Lewis Caudell, former flight instructor at the West Texas Flying Field, is one of three men held on the charges of theft of \$150,000 worth of jewelry at the airport in Amarillo last fall. Caudell and his uncle, Elmer Hawkins, made bond Monday.

Kenneth McClune is charged with the theft and the other two men with assisting him in trying to dispose of the booty.

### Peace Officers At Meeting Tuesday

Sheriff M. E. Cantrell, County Attorney C. R. Flesher, Cecil Bosley, E. M. Johnson and Dick Furlow attended a meeting of peace officers at Pampa Tuesday.

FGI officers, Army Officers and State Highway Officers instructed the peace officers as to the proper method of handling different types of criminals.

#### CEMETERY ASSOCIATION

The Cemetery Association will meet Saturday afternoon at 4 o'clock at the Thompson Club room.

## Canyon Schools Open Sept. 20th

Same Date for the Public Schools and West Texas State Named by Trustees

The Canyon public schools will open September 20, according to announcement made yesterday by Supt. J. B. Speer. The late opening of the school is due to the fact that this corresponds with the opening of West Texas State.

The trustees will meet next week to complete arrangements for the opening. A full announcement for the opening will be made by the trustees at that time.

While schools in many towns have postponed their opening for a week or more because of infantile paralysis, the opening of the Canyon schools is believed to be late enough to avoid any dangers, especially since no case is known to have developed here.

### Dr. C. E. Donnell States Paralysis Cases Subsiding

County Health Officer C. E. Donnell stated yesterday that according to the weekly report from the State Health department infantile paralysis is subsiding in Texas. The coming of cooler weather is no doubt responsible for this decline.

Dr. Donnell states that it is clearly developed that files are the chief agency in spreading the disease. He calls upon the citizens of Canyon to renew their efforts to hold the disease in check by removing all filth and rubbish, and to clean up all places where flies may breed or may be harbored.

The disease thrives during hot weather, and with the advance of fall the danger from the disease should recede on the Plains, if every citizen will clean up his premises and keep them clean. Randall county has been very fortunate in having had only two cases of paralysis developed here.

### Capt. Paul D. Dawson Visited at Penick Home Thursday

Capt. Paul E. Dawson of San Antonio stopped in Canyon Thursday to visit with Mr. and Mrs. E. C. Penick. Capt. Dawson was with the late Lieut. Lucius Penick for 18 months in Salt Lake City, in California, Hawaii, Australia, and went through the Java and Celebes battles with him. Lieut. Penick was killed in a plane crash.

Capt. Dawson paid high tribute to his former fellow Army Air Pilot. He appreciated his fine, friendly spirit and his ability to engage in argument without becoming angry.

While here last week Congressman Eugene Worley also stated that he had met Lieut. Penick while Worley was in service with the navy.

### James T. Harp and Tom Knighton in Air Corps

James Thos. Harp and Tom E. Knighton were accepted in the Air Corps Reserve last week. They will be subject to call when they become 18 years of age.

Tom left Monday for Austin where he will attend the University of Texas this year. He was accompanied by James Murphy White of Dawn, who graduated from W. T. high in June.

### Felix Pierce Here On Short Furlough

Felix Pierce was home for four days this week on a short furlough from duties on his tanker.

He is in the navy, assigned to work on the tanker which carries fuel from the west coast to our fighting units in the Pacific. He was given a 10-day furlough at San Francisco and was able to return home for four days.

### Tax Information Is Available Today

Deputy Internal Revenue Collector Warner is at the First National Bank today to give information regarding the declarations of estimated income tax and Victory Tax for 1943.

His services are free to those wishing advice.

#### AUBREY PRICHARD PROMOTED

From the 5th Army Headquarters in North Africa comes the notice of the promotion of Pvt. Aubrey J. Prichard to Private First Class. He is a rifleman in the infantry combat team.

### H. L. Heizer Is Dead From Heart Attack Sunday

H. L. HEIZER

Harold Lynn Heizer, 46, died Sunday noon at the family farm south of Canyon as the result of a heart attack. Mr. Heizer had been chasing a calf and had started to the house when a heart attack hit him. He lived only about an hour, with members of the family working over him.

The funeral was held yesterday afternoon at 3 o'clock at the Presbyterian Church, conducted by Rev. Robert Jones, assisted by Rev. Joe Findley and Dr. Harris M. Cook. Interment was in Dreamland Cemetery under the direction of the Griggs-Thompson Funeral Home.

Active and honorary pall bearers were: Ross Craig, Tom Gooch, Albert Brown, Jack Middleton, Dr. Harris M. Cook, S. B. Orton, Carl Hair, Earl Burtz, Lavert Ament, T. V. Slack, L. D. Winn, J. H. Lisle, Paul Lindsey, J. B. Speer.

Surviving are: the wife, Mrs. Carl Hensley Heizer; two sons, Bill and Harold Heizer, both serving in the Navy; the mother, Mrs. W. E. Heizer of Van Nuys, Calif.; and one sister, Mrs. Albert E. Terry, also of Van Nuys.

Neither of the sons could be reached and the sister was unable to attend the funeral. Mrs. Heizer arrived Tuesday from California.

Mr. Heizer has been a member of the Canyon school board for several years and has contributed much to the schools.

### Speer Passed the Preliminary Test on Ph. D. Degree

Supt. J. B. Speer has returned from Austin where he attended the University of Texas for eight weeks.

He has passed the preliminary examinations for his Ph. D. degree in the university. He hopes to continue working on his degree during the summer sessions of the university.

#### AL HUNTER AT TCU

Albert Ross Hunter is a member of the first Navy V-2 unit at TCU, according to official announcement of the 8th district.

He is the son of Mr. and Mrs. John E. Hunter of Canyon.

## War Bond Drive To Open Next Thursday

### Mailing Overseas Packages Soon

September 15 to October 15 Limit for Packages to Men and Women in the Service

The postoffice department warns that mailing of Christmas packages for men and women in foreign service should start September 15. No packages will be accepted for such mailing after Oct. 15. Packages will be received during that month without request from the men. After Oct. 15 the rule will be resumed of not accepting packages without the written request from those in service.

Packages must not exceed 5 pounds; must not be more than 15 inches in length or 36 inches in length and girth combined. Packages should be marked "Christmas parcel." The package must be well wrapped in heavy paper and firmly tied. It should be left so that the censor may examine the box. Perishable goods are prohibited.

### Paralysis Case Did Not Expose Other Children

A niece of Mrs. Marie Cooper was taken to the Amarillo hospital Thursday when she was suspected of having infantile paralysis. The girl is the daughter of a teacher in Plainview and has been at Hart until recently. Amarillo physicians Saturday pronounced the case infantile paralysis.

Mrs. Cooper states that the family has no idea where the case was contracted, but evidently in Plainview or Hart. She states that no child in Canyon was exposed.

### James Lair Injured Friday When Stove In Barn Exploded

James Lair was badly burned Friday when the stove in the dairy barn exploded. Burns on his face and arms were very severe. He is the son of Mr. and Mrs. Tom Lair, and the accident occurred at their farm 5 miles north of Canyon.

James is a member of the Junior class of Canyon high and he hopes to be able to start to school this fall. He was recently elected president of the F. F. A. district chapter.

#### CPL. LIEKHAUS GRADUATES

## Randall Quota Set at \$259,000

August War Bond Sales Is Under the Quota; Wright Organizes For the Drive

R. H. Wright is organizing the Third War Bond Drive which starts next Thursday, September 9. Randall county citizens are called upon to buy \$259,000 of War Bonds during this drive.

The sales for August fell under the quota set for the month. The quota for the month was \$24,500 and the sales amounted to \$21,774.50, or a deficit of \$2,725.50.

All Series E and F bonds sold during September are counted on the 3rd War Bond Drive. Those who wish to buy before the official opening of the drive on Sept. 9 may be assured that their purchases count on this quota.

2% and 2½% Treasury Bonds and 7/8% Certificates of Indebtedness count only during the Drive starting Sept. 9.

### October Call For Men Is Light in Randall County

The Randall County Selective Service board received calls for October this week, which were very small in comparison with past months.

No men will be sent during September.

The call for Oct. 8 is for four white men; Oct. 11 for two colored men.

The local board has these men available without tapping the pool of pre-Pearl Harbor fathers.

Every 3-A man in the county is receiving new questionnaires in order to bring information down to date as to their family relations and to their vocations.

### Gideons To Assist In the Last Union Service of Season

Members of the Gideon Camp of Amarillo will assist in the last union service to be held Sunday night at 8:30 o'clock at the Methodist Church. The Presbyterian and Christian Churches have joined with the Methodist Church in a series of Sunday night services during the summer and this will be the last of the series.

Rev. Robert Jones of the Presbyterian Church will preach.

W. E. Konkle, president of the Amarillo Gideon Camp will make a short talk. Otto Drachenberg will sing a solo.

### Herschel Coffee to Remain in University

Herschel Coffee was home for a few days this week, but returned to Austin last night.

Mr. Coffee is teaching part time in the University of Texas and working on his Ph. D. degree.

Mrs. Coffee and daughters will remain in Canyon during the winter. She is teaching piano in the music department of West Texas State.

### First Word Received From Malcolm Bull Since December, 1941

First word since the fall of Bataan has been received from Malcolm Bull of Canyon. He sent a card from a Japanese prison camp to his parents, Mr. and Mrs. Leigh Bull, who are now living in California.

Last direct word from him was a cablegram received on Christmas Eve, 1941. His name was included in the list of soldiers who escaped from Bataan to Corrigidor, but no further information regarding him has been received until the card arrived.

He is a graduate of West Texas State College and was employed as a ranger in Carlsbad Cavern at the time he entered service with the New Mexico National Guard members.

## Must Meet Bond Call

When it was announced last week that the War Bond quota for Randall county would be \$259,000, all of us were inclined to shake our heads and say that it could not be done.

After thinking it over, all of us agree that it must be done.

The monthly quotas have been met most of the way through, and by the end of the year it is believed that the monthly sales will be equal to or more than these calls.

This extra War Bond Drive is for the purpose of taking up the slack in war financing in the first place, and no doubt, as a secondary factor to test our patriotism. We have been saying that the war will be over at such and such a time, and most of us visualize the date when actual hostilities will cease. Perhaps this has shaken our patriotism to a considerable degree and we are not working at the job of winning the war as hard as we should be.

Here is an opportunity to test our patriotism and to see whether or not we are as good in backing our fighting men with our dollars as we are in boasting of the coming financial victory over the Axis.

One thing is sure and certain: The money is available in this nation for such a large financial drive. There never has been a time when the banks had such large deposits. All that the government asks of us is that we shall take a part of our money, invest it in the safest bonds on the face of the globe, and thereby assist in financing this war so that it may really be brought to a successful close.

The money which we have, the property which we have accumulated, or the investments which we may have made are not secure until the Axis partners are thoroughly whipped. If we lose the war, we shall get our money back with a low rate of interest.

While it is simply a good proposition, there is not a single citizen in Randall county who would exchange places with the citizens of conquered nations, or would like to exchange places with the men in the trenches, on the planes or ships, or are driving the tanks and jeeps up to and through the battle lines. Let's back the men who are doing our fighting.

Congratulations are due to Dr. J. A. Hill on his 25th anniversary as President of West Texas State. Perhaps if Dr. Hill could have looked through the years and seen all of the trials and tribulations which confronted him he would not willingly have accepted the responsibilities of his position 25 years ago. A war was then on. This was followed by a boom, and then by the financial crash, long depression, drouth and dust storms. Another war is upon us, much worse than World War I during which he assumed the duties as head of the college. His administration has been one of splendid achievements. The college has expanded from a normal school to a standard 4-year college, and later added graduate work. The physical plant has increased in spite of the unfavorable financial conditions. Dr. Hill may look back upon his 25 years as head of the college with a great amount of pride. Thousands of ex-students and friends of the President throughout the nation rejoice with him at this time and wish for him many more years of success and achievement for the college which has been his life's work. Behind every great institution is a great man, and Dr. Hill is accorded this distinction by thousands of friends upon this anniversary date.

"I do not fear that Russia will make a separate peace, she trusted Hitler once and was perfidiously betrayed. Stalin knows the fate of his country is safer with the friendship of the United States, Great Britain and China than it would be in the python-like grip of Hitler and Hirohito." Thus spoke Senator Tom Connally last week at Austin. We all hope that our distinguished Senator is correct. But we cannot help wishing that signs prevailed for a closer co-operation between America, England and Russia.

"If you want to get thin, you must eat only fruit, toast, lean meat, and drink orange juice."  
"Before or after meals."

## Chowtime Chums

"Easy, there," says Cookie, 4-year-old chimpanzee at New York's Bronx Zoo, as Helen, a Filipino macaque, swills down the milk. Cookie isn't sure Helen knows about share-the-wealth.

"Mine wife is haffing another sinking spell, and I'm staying away until it's finished."  
"What! You're staying away and she's sinking?"  
"Yes, she's sinking soprano."

"No. I don't want you to marry that young fellow."  
"But, dad, he's crazy about me, fairly crazy."  
"Well, I'll do my best to get him into some good institution."

"Did you call up that man about that unpaid bill?"  
"Yes, sir."  
"Any results?"  
"Excellent results, sir. He said he was worrying about it."

The News has had a lot of criticism of government bureaus and the inefficient manner in which they are operated. About the time we think we have said too much, something happens to burn us down, and make us wonder what manner of brainless people the government is placing at the head of these bureaus. Several months ago the Newsman traded for a small property on which there was a small government loan. The last payment was made on this loan last January. At the time we requested the return of the cancelled note, but heard nothing. A few weeks ago we renewed the request, but received no reply. A buyer for the property came along last week, and naturally he wanted to see that the loan had been paid. A call was made to the office manager at Amarillo, demanding the return of the cancelled note. His reply was: "Yes, the loan is paid, but I cannot see any reason you should want the note. It is just like paying off a note at the bank and is of no further use to you." In other words this government beauracrat knew so little about business and business dealings that he suspected a borrower just paid off, and allowed the bank or the loan company to continue holding his note, or throw it away, or do with it as he liked. In the first place the loan was a silly one, with absolutely no collateral, but after we bought the property the bureau insisted on an endorsement—"to keep the record straight." No, we are not through criticising the inefficiency of government bureaus, and wonder why in the name of common sense that men with a little business sense are not placed in charge of these lending agencies.

Like millions of other Americans we are wondering about the Hull-Welles dispute which caused the Undersecretary to resign. It is another case in which the President rejected the younger man and stayed by an old friend. In the Wallace-Jones fight, the vice president was given the more severe spanking; in the Hull-Welles fight it is the case of the President turning down a young man of special training in favor of a sick elderly man who has not been able to stay at his desk half of the time. We are told that Hull was accompanied to Quebec by the worst hater of Russia who serves in the State Department. If this is the case; if all of the work which Vice President Wallace and Sumner Welles have done to develop international friendship is to be kicked out of the window, then we may expect to see hard times ahead, both in the war and at the peace table. Mr. Hull is an able, honest man. But he represents old-fashioned diplomacy, and the President has always condemned the old-fashioned way of life. We will continue to wonder, perhaps for months to come, whether this nation is being led up a blind alley or out on the open highway toward international safety and peace. The situation is baffling to those who do not know just what is going on in Washington.

Punishing the war criminals is one of the major decisions of this war. It is one policy to which all Americans agree, and for which true thanks are being given. Former President Herbert Hoover has criticised the administration in many respects, but in this regard is strong for the punishment of those who started the war. The warning to neutral nations that they must not harbor these criminals should have good effect. It is rumored that Count Ciano, son-in-law of Mussolini, is trying to get out of Italy with 60 million dollars. If he could get to some neutral country and be allowed to remain, this money would be easy picking for the civilians. Hitler and Mussolini and their gang of cut-throats are as much murderers as any highwayman or bank robber, and must be punished for the sake of future peace of the world.

Last week it seemed that Old Age Assistance in Texas was doomed to a radical cut because our legislature was lenient and allowed the old folks to make \$250 on the side. In the eyes of Washington those who accept a dole from the government should be satisfied and should not make more money, war or no war; labor shortage or no labor shortage. It seems that the main reason Texas was threatened for punishment was due to the fact that we were not spending enough money for overhead and were consequently paying the old folks too much money. We must put more people to work examining cases before the federal government will approve of our setup. The legislature did a lot of complaining during the last session because of the high cost of examinations in Texas but it seems that we must spend more money on examinations before we meet federal requirements.

Another warning has been issued about the shortage of paper. Newspapers have told the people that this was coming, but it is another instance of crying "wolf, wolf" so often that when the wolf comes no one is ready for him. Newspapers and printers advise that it is the safe thing for every business firm to buy their printing supplies now while paper is available. And another thing, there was never a time when so much stationery was being used to write to the boys in service. An adequate supply for future needs will be a good investment for every home.

"Mr. Congressman, a lot of your constituents cannot understand your speech on subsidies."  
"Fine, it took me seven hours to write it that way."

## New Shoes?

"No, these are not new shoes, they are just some old ones which I had repaired and shined up," stated the man on the street.

## Capt. Swineford Writes to Friends At W. T. S. C.

A letter has been received from Captain D. T. Swineford, who is on leave from the art department, and who is in the military services in Africa.

August 10, 1943.  
Dear Friends of West Texas.

More than a year has passed since I have landed on the dark continent and a long year it has been too. One of these days we may get back and I can tell you we are really looking forward to that time. It has been fifteen months now since I have seen my little man and that just isn't right.

One of our former West Texas football players is stationed at the same base where I am. It sure was nice meeting him and visiting him. We go to shows together quite often and he is doing a fine job. He is a pilot, Lockhart is his name. I get the West Texas papers every once in a while and share them with him. We really enjoy the papers. It makes us feel as if we are not completely cut off from the happenings there.

I suppose at this time of the year you are all planning the new semester and getting ready for the new students. I don't imagine you expect many do you? I mean don't expect many civilian students. The colleges are really doing a fine job turning out soldiers, aren't they? Does West Texas campus look like a military camp? How is the big flower garden? I can sure ask a lot of questions, can't I?

I bought a carving set over here about a year ago, but have never had time to use it. Guess I'll have to give it to some of the natives when I leave and that sure won't be too soon to suit me. My drawing and painting has been sadly neglected, too; I shouldn't say neglected, it's just that we don't have the time at the right time. I'm very sorry about that too, because there is a world of unusual material to work on over here. Still, I'd much prefer the good ol' Palo Duro Canyon. A person could spend a life time painting out there and never run out of something to do. I hope you are not too busy but what you can keep up with your art work.

You would be surprised to know the different kinds of jobs I have had. Not a one of them had anything to do with art work.  
Your friend,  
Derald T. Swineford.

Dumbell (at police station): "Has anybody brought in a bottle of brandy I left in the bus?"  
Police Sergeant: "No, but a constable has just brought in the man who found it."

IT HAPPENS HERE TOO  
Boy: Dad, do you know that in some parts of India a man doesn't know his wife until he marries her?  
Dad: Why single out India?

## Always in Action

Like a commando on attack, your Electric servant works in the dead of night—as well as the light of day—grim in determination to produce without interruption thousands of kilowatt hours that must be ready to go on split-second notice to help make materials for your sons and brothers on the battle front.

From Power Plant to consumer, the process of generating and distributing Electricity is made possible by many types of workers. There are firemen, turbine operators, electrical engineers, substation operators, linemen, trouble shooters, and others—workers of many skills—all doing their part to "pass the ammunition" to vital key war industries, business and homes 24 hours of every day.

#### RATION REMINDER

Gasoline: In states outside the eastern shortage area, A-7 coupons are valid through September 21. B and C coupons expire according to dates on individual books. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

Sugar: Stamp No. 14 good for 5 pounds through October. Stamps Nos. 15 and 16 are good for 5 lbs. each for home canning purposes through October 31. Housewives may apply to their local ration boards for more if necessary.

SHOES—Stamp No. 18 (1 pair) is valid through October 31.

Stoves: Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing board.

Meat, Etc.: Red stamps X and Y valid through October 2. Z becomes valid September 5, and remains valid through October.

Processed Foods: Blue stamps R, S and T remain valid through September 20. U, V and W become valid September 1 and remain valid through October 20.

#### HERSHEY SHOWS ORDER OF INDUCTION

"The selection of men needed for armed forces and the deferment of men required for agriculture, war production and war supporting activities are much more difficult than in the days when we had ample men from which to choose," said Major General Lewis B. Hershey, Director of Selective Service, in a recent letter to local boards. He said, "Available men will be called for induction in the following order: (1) single men without dependents; (2) single men with collateral dependents; (3) married men without children; (4) men with children (nondeferable activities and occupations); (5) men with children."

#### SMALL ENGINES TO FARMERS

Distribution of about 37,000 air and liquid-cooled internal combustion engines of 20 horsepower and under will be controlled by county farm rationing committees. Preference rating certificates will be issued to farmers or operators of farm machinery for hire, based on the need for the engine in essential production of crops, livestock and livestock products, poultry and eggs, and bees. When the farmer receives such a preference rating certificate, he can take it to his local dealer and buy the engine.

#### DROPS BOMBS—GATHERS CORN

When the B-24 Liberator Bomber, "Lemon Drop," of the U. S. Army Ninth Air Force came back from its mission of bombing Rumanian oil refineries at Ploesti, corn stalks were clinging to its bomb bay doors. The bombardier, Captain Herbert Light, Ames, Iowa, observed—"Why, back in Iowa you'd have to fly 25 feet off the ground to get above the corn tops. No risk involved in that. But when you're heading for a target in the Rumanian oil and corn country, you've got to tear along about six feet off the ground to skim the corn tops."

#### SOME BOOTS ARE RATION-FREE

Certain kinds of rubber boots useful in farming and similar work but no longer being manufactured for general use have been released from rationing by a recent OPA amendment. All olive drab, clay, or khaki

colored rubber boots, all over-the-shoe rubber boots and all lightweight ankle-fitting rubber boots which depend upon stretch at the ankle for fitting are included in the order. However, quantities will be small because dealers do not have complete stocks on hand.

#### TO HELP YOU GET TRUCK TIRES

If you own a truck and have tire rationing certificates but cannot locate the proper tires within your county, you may apply to the nearest Motor Transport District Office of the Office of Defense Transportation for assistance, the ODT has reported.

#### PRICE SUPPORT FOR SWEET POTATOES

To encourage farmers to cure and store as much as possible of this year's expected crop of 81 million bushels of sweet potatoes, farmers will be assured a minimum of \$1.50 per bushel for U. S. No. 1 or better grade cured sweet potatoes properly packed in bushel crates, baskets or hampers and offered during January, and \$1.65 per bushel beginning February 1, 1944. Prices of U. S. sweet potatoes containing not less than 75 per cent No. 1 quality will be 15 cents per bushel less than the above prices. Farmers desiring information concerning the handling of sweet potatoes are requested to get in touch with their state or county agricultural war boards.

#### FARM HELP FROM LATIN AMERICA

A total of 57,489 workers from Mexico, Jamaica, and the Bahama Islands have come to this country for agricultural employment. Marvin Jones, War Food Administrator, recently praised the ability of these workers and described their efforts as being of utmost importance to the production of food and fiber for war needs. Mexican Nationals have been employed in agriculture in 12 western states. Jamaican and Bahamians have been employed largely in east coast states and in the middle west. The workers have come into this country to relieve farm labor shortages in critical areas. When the need for their services has passed, they will be returned to their home countries.

#### PEACE TO REPAY FOR LEND-LEASE

"The Congress in passing and extending to Lend-Lease Act made it plain that the United States wants no new war debts to jeopardize the coming peace," President Roosevelt declared in his letter transmitting to Congress the eleventh report on Lend-Lease operations for the period ended July 31, 1943. "Victory and a secure peace," the President added, "are the only coin in which we can be repaid."

#### "STANDING ROOM ONLY" ON TRAINS

If you are planning to take a train trip over Labor Day, you probably will have to stand in the aisles, ODT officials say. Passenger trains throughout the U. S. continue to run heavily loaded, with standing room in the aisles occurring frequently on some trains, particularly at week-ends.

#### TAX REPORTS DUE SEPTEMBER 15

Many farmers will be among the 15 million Americans who are required to file a declaration of estimated income for 1943 and make a payment on that basis under the "pay as you go" plan which became effective July 1, this year. September 15 is the date for filing

declarations, except that farmers, if they wish, may wait until December 15, since they receive the bulk of their income in the fall. Generally speaking, all single persons earning more than \$2,700 a year from wages subject to withholding and all married couples earning more than \$3,500 will be required to file declarations. In addition, individuals or couples with an income of \$100 or more from sources other than wages are required to file, if their total income is such that they must pay an income tax. Individuals who were required to file an income tax return for 1942 and whose wages subject to withholding in 1943 will be less must also file.

#### BETTER RUBBER FOR RECAPS

Rationing restrictions on the use of grade "C" Camel Back for recapping have been removed, according to OPA. Grade "A" Camel Back, previously available for only the largest truck and bus tires, may now be obtained for recapping tires on all trucks and buses although it is still subject to rationing.

#### HOG CHOLERA SERUM OUTPUT HIGH

The serum used in combatting hog cholera is now being made in record breaking quantities, according to the Department of Agriculture. Output of the protective serum between July 1, and June 30, 1943, was 25 per cent above last year's high output. The current supply represents large scale protection against hog cholera, the most formidable swine disease, for the vast number of hogs being raised in the United States.

The people of Texas really had one slipped over on them when a bill was put through almost doubling the salary of an Austin bureaucrat. Statesmen at Austin, who are so free with criticism of everything that Washington does, seem suddenly to have become stricken with writer's cramp and vocal paralysis when it comes to discussing this outrage right in their own front yard. Don't be shy, gentlemen; speak up and justify hiking a salary from \$4,600 to \$7,500 a year—if you can justify it. If you can't, don't you think you owe an apology to the taxpayers and that you should tell us what you propose to do about it? A lot of underpaid school-teachers, the elderly whose pensions

have been reduced and overburdened taxpayers in general are waiting, and, gentlemen, the folks are really getting sore.

The Casa de Palmas (House of Palms) in McAllen, in the Lower Rio Grande Valley, is as beautiful a hotel as the soft Spanish name suggests—with a lawn of carpet grass and a patio and portico, amid a setting of tall palms, papayas and banana trees. Opposite the Casa de Palmas is a semi-tropical park and just beyond this is the Chamber of Commerce building, the second largest in the State owned by a C. of C., states the manager and my good friend, Paul Vickers. The auditorium seats 600, and frequently programs are given for the entertainment of tourists.

My grandpa never traveled very extensively but he knew of course, about the difference in time between different sections of the country and he predicted that, some day, a tunnel would be built across the continent and a man could enter it in New York City at 9 a. m. and, propelled by pneumatic pressure, arrive in San Francisco at 6:15 a. m.—two hours and forty-five minutes before he started.

## Signs of Victory

## Lt. Olin Hinkle Writes Regarding Thoughts of Men

Lieut. Olin E. Hinkle wrote an interesting letter to Dr. John S. Humphreys from Ellington Field as follows:

Dr. John S. Humphreys, Canyon, Texas.  
Dear Friend:

Your letter gave me a great deal of pleasure. I am glad to know that Rotary is still a going concern in Canyon, and is something one would be glad "to come home to."

That is a typical thing about the soldier—his desire to go back to the simple pleasures he once knew. It won't be the same world, of course, but most of the landmarks will be there.

That is, if we win; and no one seems to have any doubt of that. Perhaps we would be doing a better job if we were not so confident. Frequent talks with boys just back from combat zones convinces me that we have just begun to fight. We have not engaged the enemy's main forces. Our boys testify that the enemy is tough and skillful. We have won only because we were able to muster overwhelming quantities of arms at some points. When and if we invade Europe, these odds may favor the enemy. But we dare not take that chance; we cannot afford another Dunkirk.

Life here is that of a military school. Only the fact that many of our instructors have been in actual fighting keeps the theoretical from overwhelming the practical (to use an old, if erroneous, figure.)

We already are speculating on the date of our probable return to civilian life, but the public of Russia prevents our optimism from getting out of bounds. Strained relations now would be so magnified at the peace table that we might need ten million men to back up our stands.

Because Russia intends to train her youth for war from the age of 10, and is re-establishing military academies in re-conquered areas—for instance—England and the U. S. face a hard problem in the post-war period. Yet without Russian collaboration there can be no hope of peace.

I find the average soldier little interested in these grave international problems. It will be the responsibility of schools, civic clubs, etc. to build such a consciousness of these problems that our people will recognize a wise national policy and support it.

Give my best regards to Mrs. Humphreys.

Sincerely,  
Olin E. Hinkle,  
1st Lt., A. C.

## Lieut. Watts Writes About Sicily Campaign

Lt. George G. Watts of the 309th Bomber Squadron, has written his family regarding his experiences in Sicily as follows:

Somewhere in Sicily.

How are things getting along back home by now? Things are pretty good over here I guess. As you can see, we have changed continents since the last time I wrote you, and that possibly could be the reason for the long delay in writing.

Yesterday was a pretty eventful day, as I am positive you already know, the downfall of Mussolini. And I can assure you that these people of Sicily were sure celebrating. They are all Italians and they hate him with a fiery passion. They also were glad to see the Americans invade the island. They are not the kind of people I thought they were. They are really friendly and will do anything for us. You should see them. They have just been starved and beaten down until they could do nothing else. They just don't have anything to their names. They say also that they are proud of the Americans because they leave them alone, especially their wives and daughters. That's about all they have left.

Well, I am now entitled to the Air Medal for I have 11 sorties and it only takes 10 to get it. By the way, a sortie is a trip over enemy territory, and believe me it is worth it.

This is about all except I hope this war is over tomorrow and we can all come home. "Be it ever so humble, there's no place like home."

Loving son,

Red.

P. S. I forgot to say I was O. K., but I'm sure you gathered that by being able to write.

## This is the Street

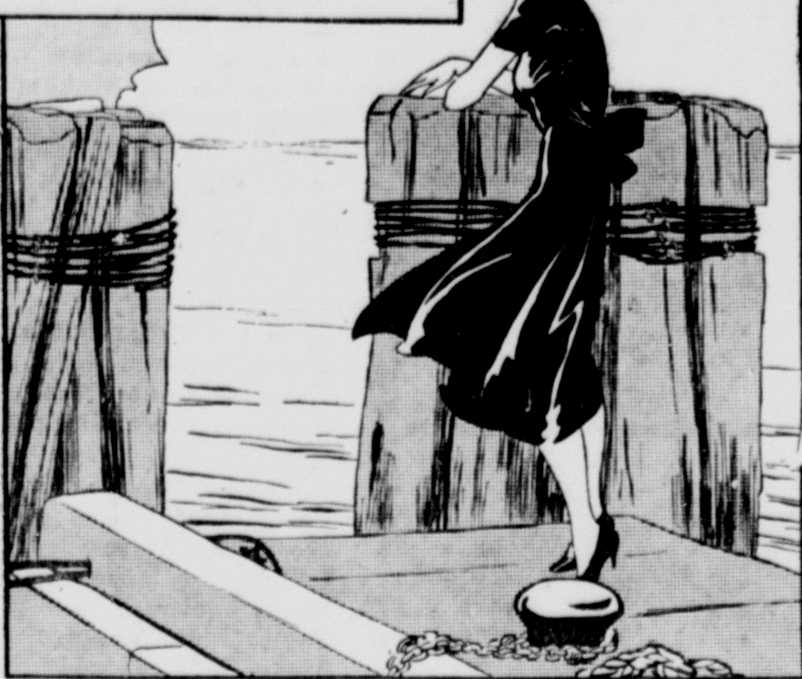

THIS is the street that we used to take  
On a long, slow summer's night,  
Wandering down to the river's edge;  
This is the dusty light

THAT shed faint magic upon a pier  
Where we sat as the ships went down,  
Hunting a path to the open sea,  
Waiting beyond the town.

SOME day we'd go along, we said,  
As the sea-battered craft slipped past.  
The world was a globe for our hearts to spin,  
Long as our love would last.

WHERE did you go, dear roving lad?  
Was there passage for only one  
On the ship that sailed to a lush green shore  
Haunted by flagrant sun?

DID somebody whisper of dusky maids,  
With lips that were nectar sweet,  
Once in awhile I seek the pier  
At the edge of the little street.

## Cornfield Chorines Rattle Tassels

Heeding the call of pioneer hybrid seed corn grower Lester Pfister, several hundred school girls from Illinois, Iowa, Missouri and Indiana are working at El Paso, Ill., on the "de-tasseling front," helping to save seed corn from inter-pollination, which would destroy years of cross-breeding. Upper picture shows a crew on a de-tasseling platform, where the girls pull tassels from seed corn, leaving two rows of pollinator corn between eight rows of de-tasseled seed corn. Lower left, Catherine Koch learns de-tasseling technique from expert Pfister. Lower right, after a tough day, the lights-out-at-10:30 rule leaves no regrets among the weary cornfield chorines as they sleep soundly in the emergency quarters in El Paso's high school gym.

## Rotary Club Has Girl Scout Leaders at Weekly Luncheon

The Rotary Club entertained 23 Girl Scout leaders who have been here for a month of special training. Miss Alice Mulkey, former student of West Texas State, was in charge of the program and explained the training being given.

D. A. Shirley called attention to the fact that Sept. 1 marked the 25th anniversary of Dr. J. A. Hill as president of the college. Dr. Hill expressed his deep appreciation of the people of Canyon and the entire state during the past 25 years. He organized the Rotary Club in 1928 and thanked the members for their loyal support during these years.

Miss Mulkey stated that the leaders in training here would go into various fields to organize and direct Girl Scout work. The young women

come from 10 states. She expressed appreciation for the work Rotary had played in developing Girl Scout work.

In Canyon there are two troops of Girl Scouts; there should be six troops. Women generally are not giving enough interest to the development of Scouting, and this work is left up to service clubs, stated Miss Mulkey.

After songs by the visitors, Mrs. James Kidd of Jacksonville, Fla., showed the tool kit of the Girl Scout leader, outlining the things which the girls like to do.

Miss Florence Otto of Chicago closed the program with an appeal for more women to do a real war time job by working with the girls in Scouting. The nation cannot afford to allow 50% of our young men to become physically defective, as the draft indicates. Youth must be taught good healthy habits. Scout leaders teach the girls to be clean in thought, word and deed.

Visitors were: Fred P. Brien of

Amarillo; Bob Lindsey of Borger; Gordon S. Comer of Lubbock; Lieut. Joe R. Foot of the Army.

# No More Rationing!

Yeah, we are just dreaming folks. Just as we pause sometime to think how wonderful it would be if the war was over, our boys back home and everything was quiet and peaceful. It's nice to think about but not if we assume the attitude that the war is just about over and become unmindful of our part in winning it. If we do that it will prolong the war.

But, IF there were no more rationing of food we can think of a lot of things we'd do right off the bat.

We'd call our old customers and tell them what a big variety of quality foods we have on hand and invite them to let us have their order.

And if gasoline restriction was over and tires were available, we'd say "Yes ma'am, we'll deliver it to your house in a few minutes."

It would be nice just to have the time to "visit" with

our customers and tell them just how much we appreciated their business back during the war when we were too busy to tell them about it.

And how swell it would be just to present your bill at the first of the month and toss in a bag full of candy when you pay it. Candy today is a lot harder to get than credit customers.

But it's all a pipe dream, folks, until this war is over and things get back to normal. Until then we'll do the best we can to keep you supplied with the best of foods available and try to remember to show our appreciation of your business.

## OUT OF THIS WORLD

During the past weeks we have been in seeming isolation; that is so far as developments in the outside world are concerned. With the exception of brief moments of discussion in various classrooms, permitted us by indulgent instructors, we have been rather far divorced from current events. Moreover, our schedule here has not been conducive to the study of world problems during our occasional moments of elisure. So, to all intents and purposes, we have been "out of this world."

The past four or eight weeks have been of no little importance in the course of this War of Survival. As a matter of fact, it would be no exaggeration to say that they may have included the turning point of the war. Russia's mighty offensive was the most significant development along with our taking of Mussolini's Sicily. The flower of the German Wehrmacht had already faded two months ago. But now it has drooped to the ground. Hitler's anniversary of 11 years of rule by organized gangsterism, brought no comfort to devoted German mothers and fathers, whose sons had been killed or maimed by the Allied Armies. No nation can lose the tremendous amount of manpower, that the Reich has lost during this period, and continue to carry on a major war. Hitler knows that his Waterloo was at El Alemain and Stalingrad.

Of like importance was the momentous conference between President Roosevelt and Prime Minister Churchill plus their respective staff's at Quebec. The concrete value represented in such a conference is clearly manifest.

The purpose of this editorial is to bring you the latest important developments of the War. The knowledge of current events is essential to you as Aviation Students later Aviation Cadets and finally Officers in the greatest army of the world.

## A Soldier's Letter

August 30, 1943.

Dear Mom:  
Here is your first born again, and let me tell you, I'm a mighty proud soldier now. I'll bet my chest has swelled out about six inches. The reason for this is: I've been promoted to flight sergeant now. As the Army expresses it, I'm strictly "on the ball."

My chest may have swelled some, but you should see Tony Palermo and Don Scheidt. That is really something. Tony has been promoted to Squadron Commander and Don has been promoted to flight lieutenant. Their chests bulge out so far you wonder how in the world that their buttons ever stand the strain. After seeing the way their shirts stand up under the strain, I can guarantee the durability of the Army garments.

One of my buddies has himself a new girl friend, and you should hear him rave. He kept us awake nearly all Saturday night listening to him tell about her. He must really be nuts about her. We finally shut him up after he made a blunder in describing the girl to us. He said: "My girl sure had a beautiful smile. Her two teeth gleam just like pearls." Now, we can't get him to mention her anymore.

I went to the theatre Saturday

night and saw the weekly chapter of "Smilin' Jack." It reminded me of the days when I used to go to the neighborhood theatre and watch western movies, until you would come in and drag me home by the ear. Remember?

Well, Mom, I guess that is about time for me to stop writing. I just asked Bill Lasher the time and of all the answers to get was "I have just exactly two hairs past a freckle."

"Till the next time, Mom, I'll just say, Love to all,  
Dusty.

## GI Nightmare

There's the story going the rounds about a soldier who was planning to cash in his War Bonds and make a trip. He changed his mind after a dream.

It seemed he was in a foxhole, picking off Japs in large and satisfying quantities. Suddenly, a sergeant tapped him on the shoulder and took his rifle away from him.

"What's the idea, Sarge?" asked the GI.

Came the answer: "The guy who lent us the money for this rifle wants it back!"

BUY MORE WAR BONDS!

## Lines Forms On The Right

Not so many months ago we heard a lot of griping concerning the slow delivery of War Savings Bonds bought through the GI payroll reservation plan. Many soldiers cancelled their reservations. Others pointedly refused to buy Bonds through the plan because of the long delays of delivery.

The Army, however, was aware of the problem and did something about it. They slashed a lot of red tape and fixed it so Bonds could be delivered more speedily. Fifteen days, they promised, would be the longest period a soldier would ever have to wait before delivery.

The Army has kept its promise. There are no longer any waits or delays in processing Bonds for soldiers. A special War Bond Office at Chicago speeds them along as fast as they are processed.

This week, however, the War Bond Office disclosed a significant piece of news. It said that allotments being received for Bonds "were were not nearly sufficient to fully utilize its facilities." In other words, the office wasn't being given a fair chance to demonstrate its system of speedy delivery because military Bond purchases had bogged down.

It looks, on the surface, as if a lot of soldiers had avoided buying War Bonds by using the argument that deliveries were too slow and they might have to wait forever to get their bonds. Maybe this is true and maybe it isn't, but the implication is there.

We think it is now time those guys who complained about slow Bond deliveries stepped forward and did something about getting on the Bond buying list again.

The line forms on the right.

## My Misery

(Or a Blind Date)

"Chin in—chest out—pull those shoulders back—suck that gut in—all the way—Mister—drive those arms down further—further. How many girls have you, Mister? 3 Sir! Only 3 Mister? Well, give me 3 more wrinkles under that chin." That, gentlemen, is the famous "Brace" and a conservative one at that. We might suggest a more appropriate name, that of "Rigor Mortis."

Monday was moving day. Flight 7 had to move over to the West side, and Flight 8 to the East side. At the sound of 1st Sgt. Barnum's whistle the race was on. By the time the smoke had cleared Capt. Brazzell was hanging a coat hanger in A-S Borstad's room. A-S A. Anderson was trying to untangle himself from some mattress springs. A-S Comstock was setting his bunk in the Recreation Room. Lt. Curry and Barnum were seen looking for the "little gig book" which had disappeared. A-S Bradley was seen walking around with a blank stare in his eyes mumbling the following poem:

Say it with flowers,  
Say it with sweets,  
Say it with kisses,  
Say it with eats,  
Say it with jewelry,  
Say it with drink—  
But whatever you do—  
Don't say it with ink!  
Did you know that:  
A-S Axelrod was a Collegiate  
Lightweight Boxing Champ?  
A-S Bingham was all-state guard

A-S Chadwick played left out for

If ye will stay with me a little  
longer I'd like to quote a poem I  
spied wilst glancing thru Esquire

Oh, there's a land not far from here

## Flights 5 & 6

By Smitty  
Inter-flight drill competition held in Buffalo Stadium Monday morning was won by our own Flight 5, and will represent the entire detachment in an exhibition drill to be held in honor of visiting Officers from Santa Ana.

Flight 5 wasn't the only flight that was so pleasantly surprised last Saturday morning. The entire detachment was taken unaware when Major Corby announced that a dress review would be held in the stadium. Let your favorite reporter say we rose to the occasion and gave a good performance. Everything went off just swell; the marching was perfect and the drilling excellent. We expect Saturday morning drills to become a permanent fixture down here! A demonstration of what 350th CTD can do.

In his first open post, A-S John Maxwell spent quite a week-end in Amarillo. From eye-witness reports, it seems that Brother Maxwell spent his time looking for Rosie the Riveter. Helping him cover the town was R. T. Kirk. Both seemed to have quite a bit of trouble Monday morning.

It is customary on returning from classes to dash madly to the bulletin board to see if you had been one of the chosen few." Most "Gigs" originate with Sgt. Weathersby, who is passing the buck to Corporal Stevens who is Act. PFC Harold Potts. Beware men. Potts is looking for a capable Adjutant.

A few promotions have been made in the Squadron and here are the lucky fellows. Plt. Lt. Palermo was promoted to Sqdn. Commander. 1st Sgt. Scheidt to Flight Lt., Suttle to 1st Sgt., and Guide Sgt. Lewis to Flight Sgt. Orchids to you boys and congratulations.

A-S Lutz certainly has a happy face these days. I understand that the fair Mrs. Lutz, who is visiting here, is the reason behind the smile.

We are very sorry to announce the death of A-S Kormash's father. The Squadron extends its sincerest sympathy to you, Mister Kormash. That's all for now.

John D. Rockefeller is credited with having told this one on himself:

Two Irishmen met on the street and, one having failed to borrow a quarter of the other, the following dialogue took place:

"Do you know, Pat, that the Rockefeller chap is the richest man in the world?"

"No, you don't say so?"  
"It's the truth, me bhoys, and every time that clock ticks off a minute Rockefeller is a thousand dollars richer."

"Be jabbers, git me an axe, an' I'll smash the clock."

"Did you bring your references with you?"  
"No, lady. Did you?"

## Know Your Insignia, Gentlemen

Those bright shining articles that you see on the shoulders of the Cadets here at C. T. C. aren't there for decorative purposes but, to distinguish the difference between the Student Officers and the rest of the personnel.

You've learned to identify your planes by the W. E. T. T. system. Well, here we learn to do it the "High Ball" way. The ones we must learn to highball most of all are:

Wing Commander, Lt. Col. A. B. Jackson.  
Wing Adjutant, Major C. T. Pulliam.

Group Commanders, Major Maslowsky and Major J. B. Wilbourne.

Four blue bars designate Lt. Col., three blue bars designate major, two blue bars designate captain, and one blue bar designates flight lieutenant.

The non-commissioned officers wear a different insignia. These insignias are in the shape of disks and are white edged in brown. Three disks designate first sergeants and sergeant majors, two represent flight sergeants and right guides, and one disk represents element corporal.

All student officers must be saluted, while the non-commissioned officers do not. An old maxim of the soldiers is, when in doubt salute.

## Flight "4"

By A. Stramler  
We, of "Flight 4," claim the title of "Sport champs of the CTD." Any flight wishing to contest our claim to the title see any member of our Flight and we shall be more than glad to prove our boast. We have an excellent gridiron eleven and a better soft-ball team. So, anyone desiring a game please get in touch with us immediately. Last week "Flight 4" lambasted "Flight 3" to the tune of 26 to 10. Flight 4 was on top right from the beginning and remained there throughout the game.

The "Eager Beaver Club" is slowly but surely breaking up. The latest member to resign was A-S Walter E. Thurman. His reason for resigning was attributed to marriage. The victim was Miss Jane Edwards on August 15 in Tulla. The "Eager Beaver Club" and all of Flight 4 wish the newly-weds all the luck in the world.

A-S Edwin Orgass and his flying instructor, Mr. Richardson, had a tight squeeze last Monday, when their plane went into a spin. However Mr. Richardson made a forced, but safe landing about five miles from the airport. The trouble was caused by part of the canopy coming loose from the fuselage of the plane.

My latest joke: A man was working in an ice plant became disgusted with his job, because of the cold. He joined the Army hoping to be sent to a warm climate. The last we heard, he was in Alaska.

"Till next week, I'll say "Adios."

Back in the days before mechanization, when armies reached their objectives only after considerable foot slogging, a company of dusty, tired and footsore soldiers, who had marched all day, were finally drawing close to the Western town they had hoped to reach before dark. A ranchman approached on horseback.

"How far are we from Springtown?" called out the sergeant.

"Oh, about two miles," was the reply.

On they marched. An hour later another ranchman passed, and again the sergeant asked how far they were from Springtown

"Oh, about two miles."

After another hour's hard marching, a third ranchman approached on horse back. Again the sergeant asked how far they were from Springtown and again came the reply: "About two miles."

"Thank God, we are holding our own, anyway," exclaimed the sergeant.

Railroads are like the human race, they have their stopping places and their termini; but unlike the human race they can make a return journey.—E. P. Day.

A prophet is not without honor, but in his own country, and among his own kin, and in his own house.—Mark VI, c. 70.

"KEEP 'EM FLYING" means more planes in the air and, in spite of every precaution, an increase in crashes. One of these may damage your property considerably.

At very slight cost you can be protected from such loss by extending the coverage of your fire insurance to include damage from falling aircraft.

## 3<sup>RD</sup> WAR LOAN DRIVE —FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

## Courses Open To Canyon Citizens

Twenty Courses Listed  
As Available; Others May  
Be Added If Needed

More people who live in Canyon will be enrolled for courses at West Texas State College this fall than ever before if a plan of the College is successful.

During the past week practically every home in Canyon has received a copy of a letter outlining a plan for day or night classes to meet the needs of people in Canyon. In the letter, twenty courses are mentioned by Dean R. P. Jarrett. He has explained that there are many others which are available if they are wanted.

Work will be offered to serve people rather than to build up college credits, although most of the work available may be taken for credit. There are courses in poultry raising, wood and metal work, costume design, city government, personal work, history, home economics, upholstery, aviation, library science, business mathematics, history of music, fundamentals of health, community welfare, everyday public speaking, child psychology and guidance, American literature, conservation and care of household appliances, bookkeeping, shorthand, income tax reports, and secretarial training.

Classes can meet on the college campus, or if more convenient to members of the class, they will meet at some more central point. The hours for classes will be determined by the convenience of those who are in them. Business men and women, professional men and women, wives of aviation students, and all citizens of Canyon who would like to study any subject, are invited to make their needs and wants known. In discussing the program, attention was called to a town in Wisconsin in which ten per cent of the citizens have been enrolled in classes every year for fifteen years. The local college would like to serve Canyon in exactly this way. The costs to students will be surprisingly small.

Persons who are interested are urged to call, write, or see Dean R. P. Jarrett at his college office, Room 109, telephone 49, or S. H. Condron, who is chairman of the college Promotion Committee.

## Sharline Burch Is New Prairie Editor For Coming Year

The Prairie for the session 1943-44 will have as its editor Sharline Burch of Amarillo. Miss Burch succeeds Bobby Blackwell who has resigned because his college work is so heavy that it does not leave time for as big an outside task as that of editing The Prairie.

Sharline Burch has completed slightly more than two years of college work with Business Administration as her major field. She has had six semester hours in Journalism. While a freshman, she was Dr. Fronabarger's assistant under N. Y. A., and last year she was Mr. Hinkle's student assistant. During the summer that is just ending, she has worked full-time in the office of the Bureau of Public Service.

According to the new editor, there will be a Prairie September 21, which is the day on which registration begins.

### Johnson Items

Mr. and Mrs. Dudley Smith and Frances and Mr. and Mrs. Ray Cain and Marilyn of Channing spent Thursday in the L. F. Spiser home. Business callers in Amarillo Monday were Mr. and Mrs. F. H. Bauer, Mrs. E. J. Bauer and Thelma, Mrs. C. W. Bauer, Mrs. Roy Stockett and son and Lula Spiser.

Miss Joyce Childers of Canyon spent the past week with Una Bauer. Members of the community attended several farm sales this week. Willard Spiser returned home from Balmorhea Friday. On his return trip he accompanied a group of Midland F. P. A. boys on a visit to Carlsbad Cavern.

### News In Canyon 25 Years Ago

(Taken from the files of the Randall County News of August 22, 1918)

Dr. R. B. Cousins held the last meeting of the faculty of the normal, preparing to turn over the affairs of the college to the new president, Dr. J. A. Hill, Sept. 1.

R. L. Marquis and family left for Denton where he is to be a member of the normal college faculty. (August 29, 1918)

In the second primary held Saturday, Worth A. Jennings was re-elected Sheriff and Tax Collector; O. W. Gano, County and District Clerk.

Oscar W. Gano and Miss Alta Gregory were married.

R. B. Cousins and family will leave Friday for Longview where he will be associated with the Kelly Plow Company.

Help Keep Canyon Clean!

*George Washington called it*  
**a "BURNING SPRING"**

Today, it becomes  
**100 Octane Aviation Gasoline!**

CARE FOR YOUR CAR—  
FOR YOUR COUNTRY

NATURAL GAS, seeping up through rock and earth and water, fed the strange flame which Washington described as a "burning spring."

Today, natural gas flows from controlled wells to feed a gigantic maze of pipes, tanks, and towers. In these it is transformed into an astonishing variety of essential wartime chemicals.

These petroleum chemicals are basic materials for 100 octane aviation gasoline . . . synthetic rubber . . . explosives . . . plastics . . . medicines and anesthetics. The list is almost endless because natural gas is an overflowing storehouse of hydrocarbons (carbon-

hydrogen compounds). When split, these become the chemical building blocks for constructing an almost limitless number of products.

It is easy to understand, therefore, the importance of two Phillips facts: 1. Phillips Petroleum Company has, we believe, the world's largest proven natural gas reserves. 2. Phillips has for many years been a leader in extending the frontiers of knowledge concerning hydrocarbon chemistry.

From now on, every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasolines, lubricants, and fuel oils, are also gigantic chemical plants pouring out weapons for victory.
